

16932-18067

John Thomas Howell

16932. *Phorodendron villosum*

South side of Mt. Tamalpais on
old stage road between West
Point and Sargent Cypresses.

Parasitic on *Quercus Wislizenii*
var. *frutescens*.

Feb. 22, 1942.

16933. *Ribes Menziesii* var.

On Skyline Boulevard about 10
miles s. of La Honda junction +
13 miles west of Mountain View,
Santa Clara Co. Mar. 1, 1942.

16934. *Ceanothus cuneatus* (Greene)

Ridge above Cascade Canyon, Fairfax,
between Fairfax and Casan Ridge,
Marin Co. Flowers nearly white, buds
faintly tinged with blue. All bushes in
vicinity from lavender to light mauve.
Mar. 8, 1942.

16935. *Sagina apetala* var. *barbata*
Common on campus of Marin Junior
College, Kentfield, Marin Co.
Mar. 17, 1942.

16936. *Carex brevicaulis* Mkeg.
Among rocks on summit of
Sawarito Hills, Marin Co.
Mar. 29, 1942.

Big Canyon Canyon, Marin Co.
Apr. 19, 1942.

16937. *Ribes Menziesii* var. *leptostemon*

16938. *Polystichum muricatum* X
P. californicum?

Both these species grow near
Big Canyon Falls where ^{parent} collection
was made.

Apr. 19, 1942.

16939. *Vicia ocellata*

16940. *Gilia gracilis*

16941. *Trifolium fructuatum*

In clay soil at Warm Springs.

16942. *Astragalus nigrescens*
with preceding.

16943. *Thysanocarpus curvipes*

16944. *Lupinus collinus*

16945. *Salvia columbiana*

Carson Ridge, Marin Co.

Apr. 19, 1942.

16946. *Carex* ^{globose var} [*brevicaulis* Muhl.]

Very common.

16947. *Castilleja*

16948. *Microcala quadrangularis*

16949. *Pedicularis densiflora*

Not growing on serpentine
& not exhibiting the peculiar
characters of the serpentine form
which was seen nearby.

16949A. *Pedicularis densiflora* var.

Lower part of San Anselmo Creek
Canyon near Fairfax, Marin Co.

Apr. 19, 1942.

16950. *Outhocarpus attenuatus*.

Oakland Hills, east side, near
Redwood Park, Contra Costa Co.

Apr. 26, 1942.

Jps.

16951. *Ribes Menziesii* var. *fruticosum*

16952. *Linum angustifolium*

16953. *Galium murale*

South side of Mt. Diablo above
Summit Ave., Marin Co. May 3, 1942

16954. *Cirsium occidentale* var. ^{*contortum*}

Two plants with white flowers.
Another in bud will be the usual
rose-colored one.

16955. *Hedysarum creticum*

Locally common near preceding.

Sausalito Hills, Marin Co.

May 16, 1942.

16956. *Cirsium* ^{occidentale} *quercetorum* X.

Stems about $1\frac{1}{2}$ ft. tall, 3 from perennial root, flowers white. Undoubtedly of hybrid origin with *C. quercetorum* (abundant in the vicinity) as one parent and perhaps *C. occidentale* as ^{the} other. Only 1 plant seen.

16957. *Caricaria microcarpa*
Not common.

San Anselmo Canyon above
Fairfax, Marin Co. May 17, 1942.

16958. *Habenaria unalascensis*

Only 1 plant seen. Collected a couple of weeks ago in another fork of this same canyon by Harry Leachke.

16959. *Trifolium barbigerum* Torr.
Flowers lavender-pink, corolla
somewhat inflated after anthesis.

16960. *Luzia galeardii* H. & A.
On ridge above Coscades near
the preceding.

Rock City, Mt. Diablo,

Contra Costa Co. May 23, 1942.

16961. *Microcala quadrangulata*

Between Juniper Camp and Deer
Flat, Mt. Diablo. May 24, 1942.

16962. *Cryptantha nevadensis* var.
rigida

Between Deer Flat and Eagle Park,
Mt. Diablo, Contra Costa Co.

May 24, 1942.

16963. *Festuca microstachys* Nutt.

On serpentine

16964. *Convolvulus microphyllus*.

On serpentine

16965. *Streptanthus glandulosus*

On serpentine. Sepals light
purplish-rose

16966. *Cryptantha intermedia*

Eagle Park, Mt. Diablo.

16967. *Dioscorea humilis* Rose - type
~~*Eragrostis umbellatus*~~
locality, Mt. Diablo.
~~*bachmanii*~~

16968. *Phacelia*

Corolla tubular - campanulate in
anthesis but not contracted until

afterwards. Not evidently glabrous.

16969. *Samolus saxatilis*

On rock talus slope at summit
of Eagle Peak. Herbage with strong
odor.

Deer Flat, Mt. Diablo,

May 24, 1942.

16970. *Sedella pentandra*

Steep canyon slope ne. of the
flat.

San Anselmo Canyon above
Fairfax, Marin Co. June 7, 1942.

16971. *Trifolium oliganthum* Steud.

16972. *Trifolium obtusiflorum*

16973. *Galium parisiense*) growing
16974. *Galium divaricatum*) together on
some hill-
side.

June 21, 1942.

along trail in chaparral on ridge
between cascades and Carson Ridge,
San Anselmo Canyon, Marin Co.

16975. *Navaretia*

Herbage mephitic but not so
disagreeably so as in *N. squarrosa*.

16976. *Poa Howellii*

16977. *Monardella neglecta*

On serpentine of Carson Ridge.

16978. *Cryptantha*

Carson Ridge, Marin Co.

16979. *Microseris Douglasii*

16980. *Centaurium*

16981. *Agrostis diegoensis*

June 21, 1942.

16982. *Deschampsia elongata*

16983. *Microcala*

16984. *Boudieria phylla*

16985. *Eriophyllum lanatum*
var. *arachnoides*

16986. *Cucurta*

16987. *Carex brevifolia* densa

16988. *Calamagrostis purpurascens*

16989. ~~*Polygonum*~~ *Leptocladus*

16990. *Sitanion jubatum*

16991. *Chenopodium pennsylvanicum*
var. *diversatum*

16992. *Ceanothus Jessoii* - Type
region

June 21, 1942.

Carson Ridge, Marin Co.

16993. *Boechneria*

Several plants seen.

16994. *Streptanthus batrachopus*

The small plants with numerous
chubby white petals with purple
veins very hard to see in the
serpentine gravel. Rather common
in spots.

16995. *Uropappus linearifolius*

16996. *Festuca idahoensis*.

16997. *Sidalcea Hickmanii*

Larger & smaller flowered plants
(the latter prostrate). Petals
light pink. Clearing among shrubs
on summit of ridge.

Near Warm Spring on Caram Ridge,
Marin Co. June 21, 1942.

16998. *Lesquerium dasycarpum*

Petals hairy, trichomes on fruit
elongate. On clay soil off serpentine.

16999. *Lesquerium dasycarpum* form?

Petals glabrous, trichomes on fruit
stubby. On serpentine.

17000. *Zigadenus fontanus*

Wet ground at Warm Spring.

Ridge between cascades &
Caram Ridge, San Anselmo Canyon.

17001. *Rosa arvensis*.

Fairfax, Marin Co.

17002. *Brassica rigida* ~~geminata~~

Not common.

June 28, 1942.

East side of Oakland Hills,
near Redwood Park, Contra Costa Co.

17003. *Angelica tomentosa*

17004. *Lactuca virosa* L.

17005. *Phacelia*

Leaves not densely revolute at
base. Corolla campanulate, pale,
lavender. Shady places

17006. *Chrysanthemum Parthenium*

Persisting about old home site
near west base of Redwood Park.

17007. *Lupinus*

17008. *Oxalis pilosa*.

July 5, 1942.

17009. *Menziesia villosa* var.

Small-leaved form forming mats
like *M. neglecta*. Growing on
shale & limestones, Fern Canyon along
Mitt Davis Trail, Mt. Inyo.

17010. *Cuscuta*

Near Preeding.

17011. *Silene antirrhina* L.

Near Preeding.

17012. *Filago californica*

Near Preeding.

17013. *Silene multinervis* Wats.

Mitt Davis Trail between Azalea
& Cat and Nova Trail.

July 12, 1942.

Cascade Canyon, Mill Valley,
Marin Co.

17014. *Epilobium californicum*
Flowers white or nearly so.

17015. *Habenaria*

Flowers creamy-white, very
fragrant. Growing with *H. elegans*
with greenish flowers that are
not fragrant. - Azules Flat, Matt
Davis Trail, Mt. Tamalpais.

17016. *Chlorogalum* ^{*var. divaricatum*} ~~*pumilum*~~
Dwarf variety, at Azules Flat.

17017. *Cuscuta*

Firetrail between West Point &
West Park, Mt. Tamalpais.

17018. *Galium californicum*

With preceding in rocky place.

July 12, 1942.

The leaves narrower than usual
and tending to be revolute. Perhaps
approaching G. clementis of Santa
Lucia. The first low-tuberculate
the tubercles at base of hairs.

17019. *Mimulus*

Perennial in swamp at Potrero
Camp Grant, Mt. Tancapari. The
hairs in the inflorescence clanging.

17020. *Carex debilisformis*

With preceding. Not common.

17021. *Carex* ^{*Cusickii*} ~~*denudata*~~

With preceding. Common.

17022. *Rhizopappus leptocladius*

On dry serpentine slope at Potrero,
near preceding.

July 12, 1942.

Potrero Meadow, Mt.

Tamalepa, Marin Co.

17023. *Juncus effusus* var.
pauciflorus

17024. *Juncus phaeocephalus* var.
pumilus.

17025. *Juncus Bolanderi*

17026. *Juncus Lescurii*

17027. *Juncus Xiphioides*

17028. *Juncus Covillei*

Besides these 6 species, *J.*
biflorus was common and in
dry part of the meadow *J.*
occidentalis.

17029. *Hypericum formosum*
var. *Santhii*.

17030. *Navarretia intertexta*

July 12, 1942.

17031. *Agoseris* ^{lanceolata} ~~heterophylla~~

17032. *Cirsium montigenum* ^{var. vaseyi}
Flowers lavender-pink. Plant
about 4 ft. tall.

Steep rocky canyon on north side
of Mt. Tancpais above Lake
Lagunitas. On Northside Trail.

17033. *Ribes Victoris*
Leaves glandular & stony-
smelling. Shrub about 10 ft. tall.

17034. *Eriogonum*
growing in moss & *Selaginella*
on rock-surfaces & in crevices.

17035. *Lotus scoparius*
Stems slender but woody below.

17036. *Allium amplexans*
with 17034.

17037. *Galium divaricatum* Lam.
Mr. Edmonds nursery, Danville,
Contra Costa Co. July 18, 1942.

17038. *Eryngium japonicum*
Clay bank between Danville
and Diablo Country Club, Contra
Costa Co. July 19, 1942.

17039. *Cirsium cymosum* (Greene)
Large much-branched plant
3-4 ft. tall with rosettes of
leaves at slender few-headed
stems around it. Arising from
underground rootstocks. Near
Rock City, Mt. Diablo, July 19, 1942.

17040. *Lactuca virosa* L.
Deer Ridge along trail to Deer
Club, Mt. Diablo. July 19, 1942.

July 19, 1942.

17041. *Navarretia pubescens*
with preceding.

17042. *Agropyron tenerum* Vasey

17043. *Trifolium obtusiflorum*
Stemmed ne. of Deer Flat, Mt.
Diablo.

17044. *Corylanthus nidularius* n.sp.
Rocky serpentine slope ne. of
Deer Flat, Mt. Diablo. Stems
entirely prostrate, only the flowers
erect! Forming a matted carpet,
very glandular.

17045. *Navarretia mellita*
with preceding.

17046. *Carum Kelloggii*
with preceding.

July 19, 1942.

Serpentine slope ne. of Deer
Flat, Mt. Diablo, Contra Costa Co.

17047. *Linum Breweri* Gray

17048. *Streptanthus glandulosus*
where No. 16965 was collected
in flower.

17049. *Monardella Douglasii*

During the day on Mt. Diablo
I collected *Lactuca scariola*
on the South side & *Anthriscus*
vulgaris on the north side, both
of which I turned over to
Leo Boverman who is now
publishing her flora of the mountain.

July 24, 1942.

17050. *Balsamorhiza inveniata*
Cold Spring, canyon E. 7k.
Kaweah River, Inland Co.

17051. *Cirsium californicum*
Tranger's Spring, canyon E. 7k.
Kaweah River, Inland Co.
Flowers white.

Mineral King, Inland Co.

17052. *Desmanthus Richardsonii*
ssp. *viscosa*.

17053. *Acer glabrum* var. *Jonesii*.

17054. *Silene Lemmonii*

17055. *Ribes lasianthum*

17056. *Holodiscus microphyllus*

17057. *Senecio lugens exaltatus*

July 24, 1942.

Mineral King, Inland Co.

17058. *Rumex acetosella* L.

17059. *Arabis platysperma*
var. *typica*

17060. *Ribes cereum*.

17061. *Prunus emarginata*

17062. *Crepis acuminata*

17063. *Agoseris retrosa*

17064. *Mertensia ciliata* var.
stomatocoides

17065. *Smilacina amplexicaulis*
var. *glabra*.

17066. *Arnica amplexifolia*

17067. *Groenlandia pumila*.

July 24, 1942.

17068. *Epilobium brevistylum*.

17069. *Gayophytum Nuttallii*
var. *typicum*.

17070. *Cardamine Breweri*.

17071. *Ceanothus cordulatus*

17072. *Elymus glaucus*.

17073. *Monarda odoratissima*
spp. *pictum*

17074. *Ergem Breweri*.

17075. *Gayophytum diffusum*.
var. *typicum*.

17076. *Penstemon azureus* spp.
parvulus,

17077. *Arenaria congesta*

17078. *Medea Wheeleri*.

July 24, 1942

Mineral King, Inland Co.

17079. *Eriogonum nudum* var.
deductum.

17080. *Sarcocolla septentrionalis*
var. *memoralis*.

17081. *Calochortus Leichtlinii*

17082. *Thalictrum Fendleri*.

17083. *Hydrophyllum occidentale*

17084. *Kelloggia galioides*

17085. *Viola purpurea*

17086. *Castropis sempervirens*.

17087. *Castilleja adenophora*

17088. *Melica bulbosa*

17089 A. *Gilia galioides*

July 24, 1942.

17089. *Carex lanuginosa*.

17090. *Phacelia ramosissima*

17091. *Salix subsericea*.

17092. *Equisetum arvense*

17093. *Salix Scouleriana*.

17094. *Osmorhiza nuda*.

17095. *Gilia Nuttallii*

17096. *Rhamnus rubra* ssp.
yosemiteana

17097. *Gnaphalium Nuttallii*
var. *Abramsii*

17098. *Lupinus procerus*.

17099. *Cryptantha simulans*

July 24, 1942.

Mineral King, Inland Co.

17100. *Chrysopsis Breweri*.

17101. *Angelica lineariloba*

17102. *Arabis repanda*.

17103. *Coma stolonifera*

17104. *Mimulus ilicifolius*

17105. *Aquilegia formosa*.

17106. *Arabis retrofracta*

17107. *Arabis divaricata*.

17108. *Phacelia oregonae*

17109. *Pedicularis semibarbata*

July 24, 1942.

- 17110. *Fritillaria pinnatifida*
- 17111. *Antennaria rosea*
- 17112. *Sitonia Hansenii*
- 17113. *Stipa Lettenbaueri*
- 17114. *Agrostis utriculata*
- 17115. *Lonicera conjugialis*
- 17116. *Symphoricarpos acutus*
- 17117. *Hackelia floribunda*
- 17118. *Phacelia heterophylla* var.
heterophylla (HECK.)
- 17119. *Barbarea orthoceras*
- 17120. *Convolvulus chalcidius*

July 24, 1942.

Mineral King, Inland Co.

17121. *Sagina saginoides*
var. *heperio*.

17122. *Ribes inerme*.

17123. *Cymopterus teresbenthinus*

17124. *Rubus nutkanus* var.
bifarius

17125. *Lupinus Andersonii*

17126. *Gazophytum humile* var.
typicum to *hirtellum*,

17127. *Artemisia tridentata*

17128. *Allium Anthonii*

17129. *Arctostaphylos patula*

July 25, 1942.

Mineral King, Inland Co.

17130. *Solidago comysoidea*.

17131. *Ribes montigenum*

17132. *Tylochin palustris*

17133. *Veronica americana*.

17134. *Tofieldia occidentalis*

17135. *Equisetum kanadense*.

17136. *Juncus nevadensis*

17137. *Collomia tinctoria*

17138. *Melica stricta*

17139. *Phacelia heterophylla* var.

Corolla lavender. milky white.
(17139)

July 25, 1942.

Mineral King, Inland Co.

17140. *Arabis Lemmonii*

17141. *Cystopteris fragilis*

17142. *Linum Lewisii*

17143. *Carex lanuginosa*

17144. *Eriogonum umbellatum* var.
polyanthum

17145. *Eriogonum aspergulinum*

17146. *Sisyrinchium idahoense*

17147. *Carex athroastachya*

17148. *Senecio oreopolus*

17149. *Salix Lemmonii*

July 25, 1942.

17150. *Carex aurea*.

17151. *Epilobium adenocaulon*.

17152. *Arabis Drummondii*

17153. *Epilobium lactiflorum*.

Eagle Lake Trail near Mineral
King, Inyo Co.

17154. *Carex heteroneura*.

17155. *Poa Blendinii*

17156. *Draba cruciata*

17157. *Arabis divaricarpa*

17158. *Erysimum nevadense*.

17159. *Lonicera involucrata*

July 25, 1942.

Eagle Lake Trail near Mineral
King, Inland Co.

17160. *Phacelia oregana*

Moist edge of sloping meadow in
sandy soil. Lint bluish-purple,
throat white. Type locality.

17161. *Trifolium monanthum*

17162. *Trifolium variegatum* var.
pauciflorum.

17163. *Eriogonum pauciflorum*

17164. *Salix orestera*

17165. *Hemizonia rubescens*
var. *pachypoda*.

17166. *Ribes viscosissimum*

17167. *Epilobium oregonense*.

July 5, 1942.

17168. *Chaetanthes gracillima*.
17169. *Stellaria borealis*.
17170. *Castilleja miniata*
17171. *Caryx Reynoldsii*
17172. *Saxifraga punctata* var.
angusta.
17173. *Saxifraga montana*
17174. *Caryx Rossii*
17175. *Juncus Parryi*.
17176. *Streptanthus tortuosus* var.
flavescens.
17177. *Caryx multicastrata*
17178. *Juncus nevadensis*.

July 25, 1942.

Eagle Lake Trail near Mineral
King, Inland Co.

17179. *Collinsia parviflora*.

17180. *Gazophytum racemosum*
var. *typicum*

17181. *Draba stenoloba* var. *nana*.

17182. *Nemophila spatulata*

17183. *Lionanthus olivaceolatus*

17184. *Collinsia Torreyi*

17185. *Galium bifolium*

17186. *Cryptantha affinis*

17187. *Trifolium cyathiferum*

17188. *Gilia capillaris*

July 25, 26, 1942.

17189. *Poa*

17190. *Minulus*

17191. *Stephanomeria tenuifolia*

17192. *Condalia maculata*.

17193. *Carex teneraeformis*.

Mineral King, Inland Co.

July 26, 1942.

17194. *Eriophorum criniger*

17195. *Geum macrophyllum*.

17196. *Comandra pallida*.

17197. *Antennaria drumunculoides*

17198. *Halenium Strepasii*

July 26, 1942.

Mineral King, Inland Co.

17199. *Penstemon Bridgesii*

17200. *Allocarya hispida*

17201. *Collomia linearis*

17202. *Veronica alpina* var.
altenuiflora

17203. *Bruno marginatus*

17204. *Ligusticum Gaayii*

17205. *Juncus bufonius*

17206. *Carex heteronema*

17207. *Carex Kelloggii*

17208. *Stellaria longipes*

July 26, 1942.

17209. *Carex Jonesii*

17210. *Carex teneriformis*

17211. *Solidago elongata*

17212. *Polygonum Douglasii*

17213. *Carex rostrata*

17214. *Carex integra*

17215. *Scirpus Cuydonii*

17216. *Juncus mertensianus*

17217. *Limonanthus ciliatus*

17218. *Lotus crassifolius*

17219. *Deschampsia elongata*.

July 26, 1942.

Mineral King, Inyo Co.

17220. *Agrostis idahoensis*

17221. *Trifolium Wernckboldii*

17222. *Salix Eastwoodiae*

17223. *Sitonia Hystrix*

17224. *Navaretia divaricata*

17225. *Juncus orthophyllus*

17226. *Eriogonum leucophyllum*

17227. *Helenium Bigelovii*

17228. *Poa Deschampsia cespitosa*

17229. *Carex fissuricola*

July 26, 1942.

17230. *Agrostis hiemalis*.
17231. *Phleum alpinum*
17232. *Trisetum spicatum*
17233. *Zigadenus venenosus*.
17234. *Achillea lanulosa*
17235. *Smilacina stellata*
17236. *Muhlenbergia squarrosa*.
17237. *Agropyron parviflorum*
17238. *Hordeum nodosum*
17238A. *Prunella vulgaris*
17239. *Stipa Elmeri*.
17240. *Potentilla gracilis Nuttallii*

July 26, 1942.

Mineral King, Inland Co.

17241. *Koeleria cristata*

17242. *Sphaerostachium capitellatum*

17242 A. *Epilobium glaberrimum*

Between Mineral King and Cold
Spring Camp Ground, Inland Co.

17243. *Elerchastus palustris*

17244 *Carex abrupta*

17245. *Epilobium paniculatum*

17246. *Gayophytum diffusum*
var. *typicum*.

17247. *Gayophytum Nuttallii*
var. *Abnamsii*

17851. *Lupinus hypoleucis*.

Aug. 8, 1942.

17852. *Lupinus hypoleucis* x ^{*leucophyllus*} *Covillei*.

Probably a hybrid between
No. 17842 & preceding.

17853. *Lupinus hypoleucis*.
Flowers smaller.

17854. *Crepis nana*

17855. *Arabis Lemmonii*

17856. *Polemonium eximium*

17857. *Eriogonum incanum*

South side, Farewell Gap.

17858. *Astragalus Bolanderi*.

17859. *Senecio Fremontii* var.
occidentalis

Mineral King, Inyo Co. Aug 8, 1942.

17860 *Gentiana Anabella* var.
acuta.

East side of Mt. Tamalpais at
head of Baltimore Canyon, Marin Co.
Aug. 16, 1942.

17861. *Habenaria*

East side of Oakland Hills between
Round Top and Redwood Park,
Contra Costa Co. Aug. 23, 1942.

17862. *Habenaria*

Flowers greenish-white, faintly
fragrant.

17863. *Ribes Victoris Greene*

Northside Trail, Mt. Tamalpais
above Lake Lagunitas, Marin
Co. Sept. 6, 1942.

17864. *Garrya rigida* Estw.
On rocky semi-open slopes
near the preceding. Sept. 6, 1942.

17865. *Cordylanthus*
Wooded hillsides, Fairfax,
Marin Co. Sept. 13, 1942.

17866. *Navarretia*
Trail to Caran Ridge above
Cascade Canyon, Marin Co.
Sept. 13, 1942.

17867. *Epilobium paniculatum* Tysander
Caran Ridge, Marin Co.
Sept. 13, 1942.

17868. *Amaranthus hybridus*

17869. *Amaranthus gracilis*

17870. *Amaranthus deflexus*

all from Fairfax, Marin Co. Sept. 13-42

under *Pinus ponderosa* at
Charlton Flat, San Gabriel Mts.,
Los Angeles Co. Oct. 19, 1942.

17871. *Cuscuta californica*

On *Eriogonum Wrightii*.

var. *mollis*

17872. *Arctostaphylos glandulosa*,ⁿ

Branchlets + young inflorescence
canescent-pubescent. Pedicels +
fruits sparsely pubescent. Tall
shrub 6-8 ft. tall.

var. *mollis*

17873. *Arctostaphylos glandulosa*,ⁿ

a greener plant than the
preceding but otherwise like
it.

var. *mollis*

17874. *Arctostaphylos glandulosa*,ⁿ

Differing from the two preceding
in the hirsute hairs on branches
and petioles.

These three mangonitos grew in a thicket close together. Frank裴森 thought at first they were patula but the pubescence of the fruit, petiole + inflorescence precludes that. Then he thought they were Paryana, however there are usually 1 or 2 separate nutlets in each fruit beside the larger "stone". I told him they might be a non-glandular form of glandulosa. Because of the density of the thicket + the deep humus around the bases of the plants it was not possible to determine if they stump-sprouted. But along the highway a few hundred yards east of Charlton Flat were scrubby (1.5-3 ft. tall) mangonitos on a logback and here it was evident that the plants stump-sprouted. I think the plants were the same

as the Charlton Flat plants but unfortunately I didn't collect any.

On the day following at Pomona College plants corresponding to the Charlton Flat plants were found to have been annotated Parriziana var. pinnatum (Rollins) by Beryl Schreber.

In the Academy Herb. similar plants from the San Gabriel Mts. are "glandulosa var." acc. Miss Eastwood.

Acc. to Lemmon's original description of Parriziana the pedicels were woolly and the fruit glabrous, and of course, the nutlets united into a single stone.

- Oct. 31, 1942.

17875. *Cheilanthes californica*

Crevices of rocks along trail, Bootjack
canyon near the bridge, Mt.

Tamalpais, Marin Co. Jan. 1, 1943.

17876. *Ribes Victoris*

At the station on Northside Trail,
Mt. Tamalpais, where nos. 17033 +
17863 were collected. Now the fruit
is perfectly ripe: in color purplish-
red and distinctly flattened above
and below. The pulp is sweet and
has a mild but pleasing flavor.
An average fruit is about 9 mm.
long + 11 mm. thick. Jan. 17, 1943

17877. *Cheilanthes intertexta*

Crevices of rocks along trail between
Collier Springs and Rifle Camp in
serpentine area but apparently not on
serpentine itself. Mt. Tamalpais, Jan. 17, 1943.

Mar. 7, 1943.

Hills northeast of San Rafael,
Marin Co.

17878. *Plagiobothrys tenellus*

17879. *Sagina apetala*
var. *harbata*

17880. *Arctostaphylos Menziesii*

17881. *Arctostaphylos Cushingiana*

17882. *Cheilanthes intertexta*.

17883. *Arctostaphylos Cushingiana*.

A number of plants of *Ribes* were found in bloom on the northeastern slope of the hills in the same region where specimens were collected in fruit in 1941. The flowers exhibited great variation in the color of sepals, these varying from

Mar. 7, 1943.

pale greenish to deep red. There was no other apparent difference between the plants which grew close together under same conditions.

This variation in color is what Miss Entwistle found at the type locality of R. Victoris so the color of the sepals is not enough to separate Victoris from leptocarpum.

17884. Ribes Victoris

Sepals pale greenish, sometimes faintly rose-tinged.

17885. Ribes Victoris

Sepals deep red, sometimes greenish near tips.

17886. Ribes Victoris

Colors of sepals intermediate between two preceding.

17887. *Ribes Victoris*

In shape flower more like the
"Victoris" from the Northside Trail
on Mt. Tonalpois - flower larger
and broader than in preceding.
Color intermediate.

17888. *Ribes Victoris*

On Northside Trail, Mt. Tonalpois
where No. 17876 and other collections
have been made. Sepals green and
red on same plant. Mar. 14, 1943.

17889. *Collitriche Bolanderi*

In stream in Potrero Meadows,
Mt. Tonalpois, Marin Co.
Mar. 14, 1943.

17890. *Montia fontana*

Wet stream-bank, Potrero Meadows
Mt. Tonalpois. Mar. 14, 1943.

17891. *Sagina occidentalis*

Jilmon Paimanla near south
end, Marin Co. Apr. 3, 1943.

17892. *Minuartia Douglasii*

On rocky slopes near the preceding.
All of the plants except one
cleistogamous. Apr. 3, 1943.

Apr. 11, 1943.

17893. *Sagina aptala* var. *barbata*

No petals. Street weed, San Rafael.

17894. *Rubus vitifolius* var. *titanus*

Flowers perfect. Lower part of Black
Canyon, San Rafael hills.

17895. *Jasxacum laevigatum*

with prickling.

Black Canyon, San Rafael hills,
Marin Co. Apr. 11, 1943.

17952. *Festuca Elmeri*

In dry shaded woodland.

17952A. *Trisetum cuneatum* - with # 17952.

In rocky places near falls:

17953. *Elymus glaucus*

17954. *Bromus laevipes*

17955. *Bromus carinatus*

17956. *Grapholium californicum*

17956A. *Stipa lepida*.

May 9, 1943.

In chaparral or in upper part
of Black Canyon, San Rafael hills,
Marin Co.

17957. *Castilleja*

17958. *Godeatia amara*

Inflorance drooping in bud.

17959. *Castilleja*

17960. *Agrostis diegenensis*

Summit of San Rafael hills at head of

Black Canyon, Marin Co.

17961. *Festuca Myuros*.

17961A. *Festuca megala*

17962. *Festuca dentonensis*

17963. *Festuca idahoensis*

May 9, 1943.

17964. *Elymus glaucus japonii*

17965. *Agrostis Haller.*

17966. *Danthonia californica*

17967. *Trifolium variegatum*

17968. *Trifolium bifidum*

17969. *Trifolium gracilentum*

Summit of San Rafael Hills ne. + n.
of Black Canyon, Marin Co.

17970. *Scutellaria* "

17971. *Lupinus bicolor*

17972. *Bromus carinatus*

17973. *Festuca dentemensis*

May 9, 1943.

Summit of San Rafael hills ne. +
w. of Black Canyon, Marin Co.

1 17974. *Githopsis*

1 17975. *Styloscline gnaphaloides*

17976. *Streptanthus secundus*

Claw and midrib of blade violet,
the rest of blade white.

1 17977. *Gilia*

Corolla very pale lavender.

1 17978. *Antirrhinum*

1 17979. *Vicia*

1 17980. *Godetia quadrivulva*

1 17981. *Agoseris heterophylla*
var. *lynnensis*

May 9, 1943.

17982. *Melica Torreyana*.
17983. *Silene antirrhina*
17984. ^{*Crotophus*}
Microseris } *linearifolia*
17985. *Sagina occidentalis*
17986. *Penstemon*
17987. *Lupinus formosus*
In grassland on open hills
17988. *Trifolium Macraei*

May 10, 1943.

About 1 mile n. of Windsor, Sonoma Co.
in low field where water stood.

17989. *Baeria fremontii* (Don.) Gray.

17990. *Trifolium grayi* Loja.

About $1\frac{3}{4}$ mile n. of Windsor, Sonoma Co.

17991. *Carex densa* Bailey.

Two mi. n. of Windsor, Sonoma Co.

17992. *Vicia benghalensis* L.

17993. *Comatium utricularum* var.

anthemifolium Jeps.

Healdsburg, Sonoma Co.

17994. *Malva sylvestris* L.

In vacant lot.

About 1 mile s. of Cloverdale, Sonoma Co.

17995. *Parentucellia viscosa* (L.) Car.

May 10, 1943.

Chaparral-covered hills, 7 miles from
Lakeport on road to Hopland, Lake Co.

17996. *Salix Lemmonii* - fide Baker
after det. of Ball.

17997. *Scribneria Bolanderi*.

17998. *Linnanthus pygmaeus*

17999. *Gnaphalium humile* Juss.

18000. *Lemmonia californica* Gray.

18001. *Lotus crassifolius* (Bth.) Greene.

Stems ca. 4 ft. tall, fistulose.

Open rocky slopes 5 miles from Lakeport
on road to Hopland, Lake Co.

18002. *Micropus amphibolus* Gray

18003. *Stylocline gnaphaloides* Nutt.

May 10, 1943.

Open rocky hills 5 miles from Lohpant
on road to Hopland, Lake Co.

18004. *Godetia epilobioides* var.
modesta (Jeps.) Jeps.
18005. *Layia septentrionalis* - fide Baker.
18006. *Collinsia corymbosa* - fide Baker.
18007. *Tomatium*
18008. *Cryptantha dissecta* - Type locality.
18009. *Calycadenia truncata* - n. var.
Rays lemon-yellow.
18010. *Frillella Pringlei*.
18011. *Sedella pentandra* H.K. Shreve.

May 11, 1943.

Serpentine hill 1 mile south of
Lakeport, Lake Co.

18012. *Azoseris heterophylla* var.
californica (Nutt.) Jeps.

18013. *Trifolium olivaceum*.

18014. *Microseris Douglasii*

18015. *Phacelia* ~~sp.~~

Stems and inflorescence glandular
and odorous. Corolla whitish, open-
compoundate, the lobes erect.

18016. *Streptanthus barbiger* Greene.

18017. *Cryptantha dissita* Jtn

18018. *Astragalus Breweri* Gray

18019. *Poa scabrella* (Thunb.) Benth.

May 11, 1943.

Serpentine hill, 1 mile south of
Lakeport, Lake Co.

18020. *Festuca pacifica* Piper.

18021. *Festuca Grayi* (Abrams) Piper

18022. *Festuca Grayi* Piper

18023. *Festuca Eastwoodae* Piper

Roadside ditch, 1 mile north of
Kelseyville, Lake Co.

18024. *Carex breviligulata* Mkyz

18025. *Carex gracilior* Mkyz.

18026. *Carex subfusca* W. Britt ?

18027. *Carex feta* Bailey

May 11, 1943.

Grassy ridge 2 miles south of
Kelleyville, Lake Co.

18028. *Lupinus albifrons* var.

18029. *Trifolium obtusiflorum* Hook.

18030. *Trifolium dichotomum* H. & A.

Flats where water has stood, 8.9 miles
south of Kelleyville, Lake Co.

18031. *Juncus* ^{*hemisphaeroides*} ~~*umbellatus*~~ Greene.

18032. *Juncus sphaerocarpus* Nees.

18033. *Juncus Kelloggii* Engelm.

18034. *Polygonum Kelloggii* Greene.

18035. *Hummingia crispata* -

file M.S. Boker after Howell's det.

May 11, 1943.

Flats where water stood, 8.9 miles
south of Kelseyville, Lake Co.

18036. *Allocarya sublobata* Small

18037. *Sedella leiocarpa*

Type + only known locality!

18038. *Eleocharis paniculata* var.
Sukhodorsiana.

18039. *Mimulus angustatus*
growing with *M. tricolor*.

18040. *Microseris acuminata* Greene.

18041. *Polygonum Parryi* Greene

In chaparral near preceding:

18042. *Cryptantha microbachne* Johnston.

18043. *Arctostaphylos pulchella*.

May 11, 1943.

Lower Lake, Lake Co.

18044. *Lupinus densiflorus*
var. *Menziesii*

Serpentine hill, 2.9 miles n. of
Middletown, Lake Co.

18045. *Minimus Layneae*.

18046. *Delphinium eliginosum*
Curran.

18047. *Allocarya stricta* Greene.

18048. *Cryptantha bipidula*

18049. *Streptanthus Breweri* Gray.

18050. *Modia Hallii* Keck.

18051. *Linum Clevelandii* Greene.

18052. *Penstemon montanus* Greene.

May 11, 1943.

Serpentine hill, 2.9 miles n. of
Middleton, Lake Co.

18053. *Melica Toungou*

18054. *Streptanthus glandulosus* Hook.

18055. *Festuca californica* Vasey.

18056. *Bromus laevipes* Shear.

18057. *Collinsia Greenei* Gray.

18058. *Lagophylla dichotoma*

18059. *Cypripedium bipindula*

18060. *Convolvulus malacophyllus*
Greene.

18061. *Phacelia* -

Stems glandular + odorless, the
inflorescences lying prostrate on the

May 11, 1943.

ground!

18062. *Phacelia* ~~argyræa~~

Similar to preceding but stems erect
& fruiting sepals purplish-red - instead
of yellowish-green!

18063. *Agrostis exarata* var. *monolepis*

18064. *Chaenactis glaberrima* var.

18065. *Campanula angustiflora*
var. *exilis*.

Mineral Mine south of Middletown

18066. *Fremontia nopensis* Ester.

S. side Mt. St. Helena, Napa Co.

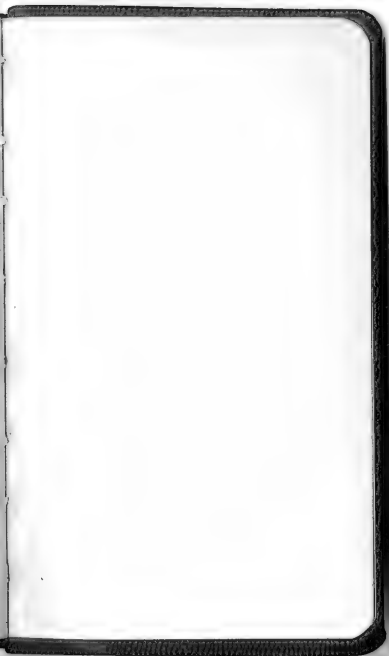

18067. *Reseda luteola* L.

The preceding 80 numbers collected on a
most enjoyable & memorable trip with M. S. Baker
